

## **AUSPLUME UPDATE**

Guy Edgar – EPA Victoria

**14<sup>th</sup> IUAPPA World  
Congress**

# Where is AUSPLUME at?

- AUSPLUME version 6.0 is the current regulatory version
- Funding an upgrade of AUSPLUME 6.0 to include enhancements and bugs (all of which are considered non-critical) is being sought
- EPA is scoping a project to compare AUSPLUME with other regulatory models (AERMOD/TAPM/CALPUFF)

# Where is AUSPLUME at?

- AUSPLUME 6.0 is compatible with Windows XP and we currently have not verified its compatibility with Windows Vista
- Feedback from people using AUSPLUME version 6.0 on Vista is that it can run dependent on user rights
- EPA would like to any hear any further feedback on running AUSPLUME 6.0 on vista ([ausplume@epa.vic.gov.au](mailto:ausplume@epa.vic.gov.au))
